ID-Irish Moss by HPTLC			
Tested at an ISO 17025 accredited laboratory.			
Test Parameter	ID-Irish Moss	Method Reference	
Technique	HPTLC		
Test Result	Acceptance Criteria Met for Botanical Irish Moss	Recorded On	05/30/2025

Commentary:

The supplement tested positive for the botanical ID Irish Moss - confirming it is true to the botanical stated on the packaging. The supplement has been tested against reference standards side by side on the same plate, developed under identical conditions, bands visualized, and then had Rf values compared (and color/fluorescence responses) to confirm the identity is equal to that of true Irish Moss, and meeting the specified value on the packaging.
