Order No.:L2508290895

### Certificate of Analysis

Sample ID:M2508299268  
Sample Name:Suppressa Drops  
Lot No.: CLA006  
Sample Description:liquid  
Sample Condition:No Defects Found  
PO: CLA006  
Serving Size:4 ml

Sample Received:08/29/2025

Hydroxy Citric Acid by HPLC (USP Monograph)			
Test Parameter	Hydroxy Citric Acid	Method Reference	USP Monograph
Technique	HPLC		
Test Result	954 mg/serving	Recorded On	09/19/2025

#### **Commentary:**

This product reflects a HCA reading of 954mg per 4ml serving. This is an exceptionally high strength HCA reading for Garcinia Cambogia - even in the highest strength, standardized extracts.

It does suggest either an exceptionally high-strength Garcinia Cambogia extract has been used (standardised at 95%+) - which is rare by industry standards. Or that the Garcinia Cambogia Extract is fortified with HCA salt.

HCA is the most studied compound in relation to Garcinia Cambogia and its effects on weight loss, so for this purpose, this product delivers a clinically meaningful dosage of HCA per serving.
